INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 2439 WO F		gent's file reference	FOR FURTHER ACTION	see Notification of Fransmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.					
International application No. PCT/US03/34617			International filing date (day/month/year) 30 October 2003 (30.10.2003)		(Earliest) Priority Date (day/month/year) 12 November 2002 (12.11.2002)				
Applicant ALCON, INC									
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.									
This international search report consists of a total of sheets. It is also accompanied by a copy of each prior art document cited in this report.									
1.	 Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. 								
	Au b. With	the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:							
	CO1	ntained in the internation	al application in written form.		•				
	L file	filed together with the international application in computer readable form.							
	fur	furnished subsequently to this Authority in written form.							
	fur	furnished subsequently to this Authority in computer readable form.							
	_	the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.							
		the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.							
2.	L Ce	rtain claims were foun	d unsearchable (See Box I).						
3.		ity of invention is lack	ng (See Box II).						
4.		egard to the title,							
	\equiv	text is approved as sub	• ••						
	L the	e text has been establishe	d by this Authority to read as follo	ws:					
5.	With regard	d to the abstract,							
	the	text is approved as sub-	nitted by the applicant.						
	ma	the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.							
6.	The figure	ne figure of the drawings to be published with the abstract is Figure No.							
	as	suggested by the applica	nt.		None of the figures				
	bec	cause the applicant failed	l to suggest a figure.						
	bec	because this figure better characterizes the invention.
